"It's always a joy to play something you're not familiar with, but something that has you hooked from the very beginning. You could say this is a game for the completionist. They don't call it a game of 'getting as much as you can out of a limited time' for nothing." — IGN. ( "They've shaken up the core gameplay in a way that feels fresh and something I can't resist. It's a brilliantly executed action RPG." — GameSpot. ( "And while the visual arts are seldom the reason why you're buying a game, Elden Ring Free Download: The Er is probably worth visiting just to admire the fantastic textures and artwork. And while I'm complaining about it, I'll say that I'm glad the development team had the sense to make the big changes to the original game in the most pragmatic way possible, because this is definitely a new Elden Ring Free Download. With all of that said, it's still the Elder Scroll series, which means the world is big, and the character models are bigger, and the combat is more ambitious." — Polygon. ( "It feels like a very complete package. The combat is appropriately gritty but never dull. The dungeons and environments are fully-fledged, and the boss fights are not a walk in the park. You can also choose to play as either an Archer or a Fighter, each with their own play styles, and both of those move towards the action genre, rather than the more role-playing-inspired style of the first Elder Scrolls. Combat is true to its roots, and it's relatively easy to pick up, but there's always something to be learned or discovered, as is the case with a game such as this." — Gaming Heroes. ( bff6bb2d33

### What's new in Elden Ring:

**[b]■ ■ [ [Web Gem] Browse Palynix Ring [Deck 13.0] Greetings fellow Miners, a new deck that trades paladin for rifles and shotguns, offering high damage on creatures at a high cost.**

---

## Introduction

After years of being a restricted weapon of choice, the sky is now falling! Rifle and shotgun weapons are now balanced, and we no longer have the restrictions on custom weapon quality imposed on paladin decks. From this point on, we'll be opting for gunpowder rifles and shotguns, making maximized out-of-battle damage a reliable consistency.

Although we don't have to worry about putting way too many resources into defense, we can worry about putting way too many resources into offense. Take the following deck list, for example. Because the deck is brand new, we've sacrificed defensive stats for offense. We have a whopping 10 skeleton lords, each packing a massive 6,300 attack. That's more than enough for this deck, and although it may be tougher to streamline than a regular paladin deck, the whirlwind of damage unleashed will utterly wreck your opponent's defenses. I'm sure every deck that has come before me has used the same theme, but instead of using several cards like their predecessors, they've decided to just straight up not run any, resulting in a much slower deck that requires a much broader skill base. Let me explain... Since this deck is fairly new, I can't really go into detail about what cards you need to run for it to work, but I can at least tell you what cards you can get rid off.

Main deck: 15

A. [Rifle]

Main deck: 7

B. [Shotgun]

C. [Rifle]
